

Model: D43-IP

IP 4.3 inch Apartment Outdoor Station (IPS Glass Lense)

Key Features:

Simplified Wiring: CAT 5 / CAT 6 network cable connection, supporting long-distance communication.

Remote Access: Remote video talk and remote unlock via Tuya and Smart-life app.

Unlock Security: Facial recognition, IC cards and password for unlocking

Security Monitoring: Door station with infrared night vision with liveness detection

IP 4.3 inch Apartment Outdoor Station (IPS Glass Lense)

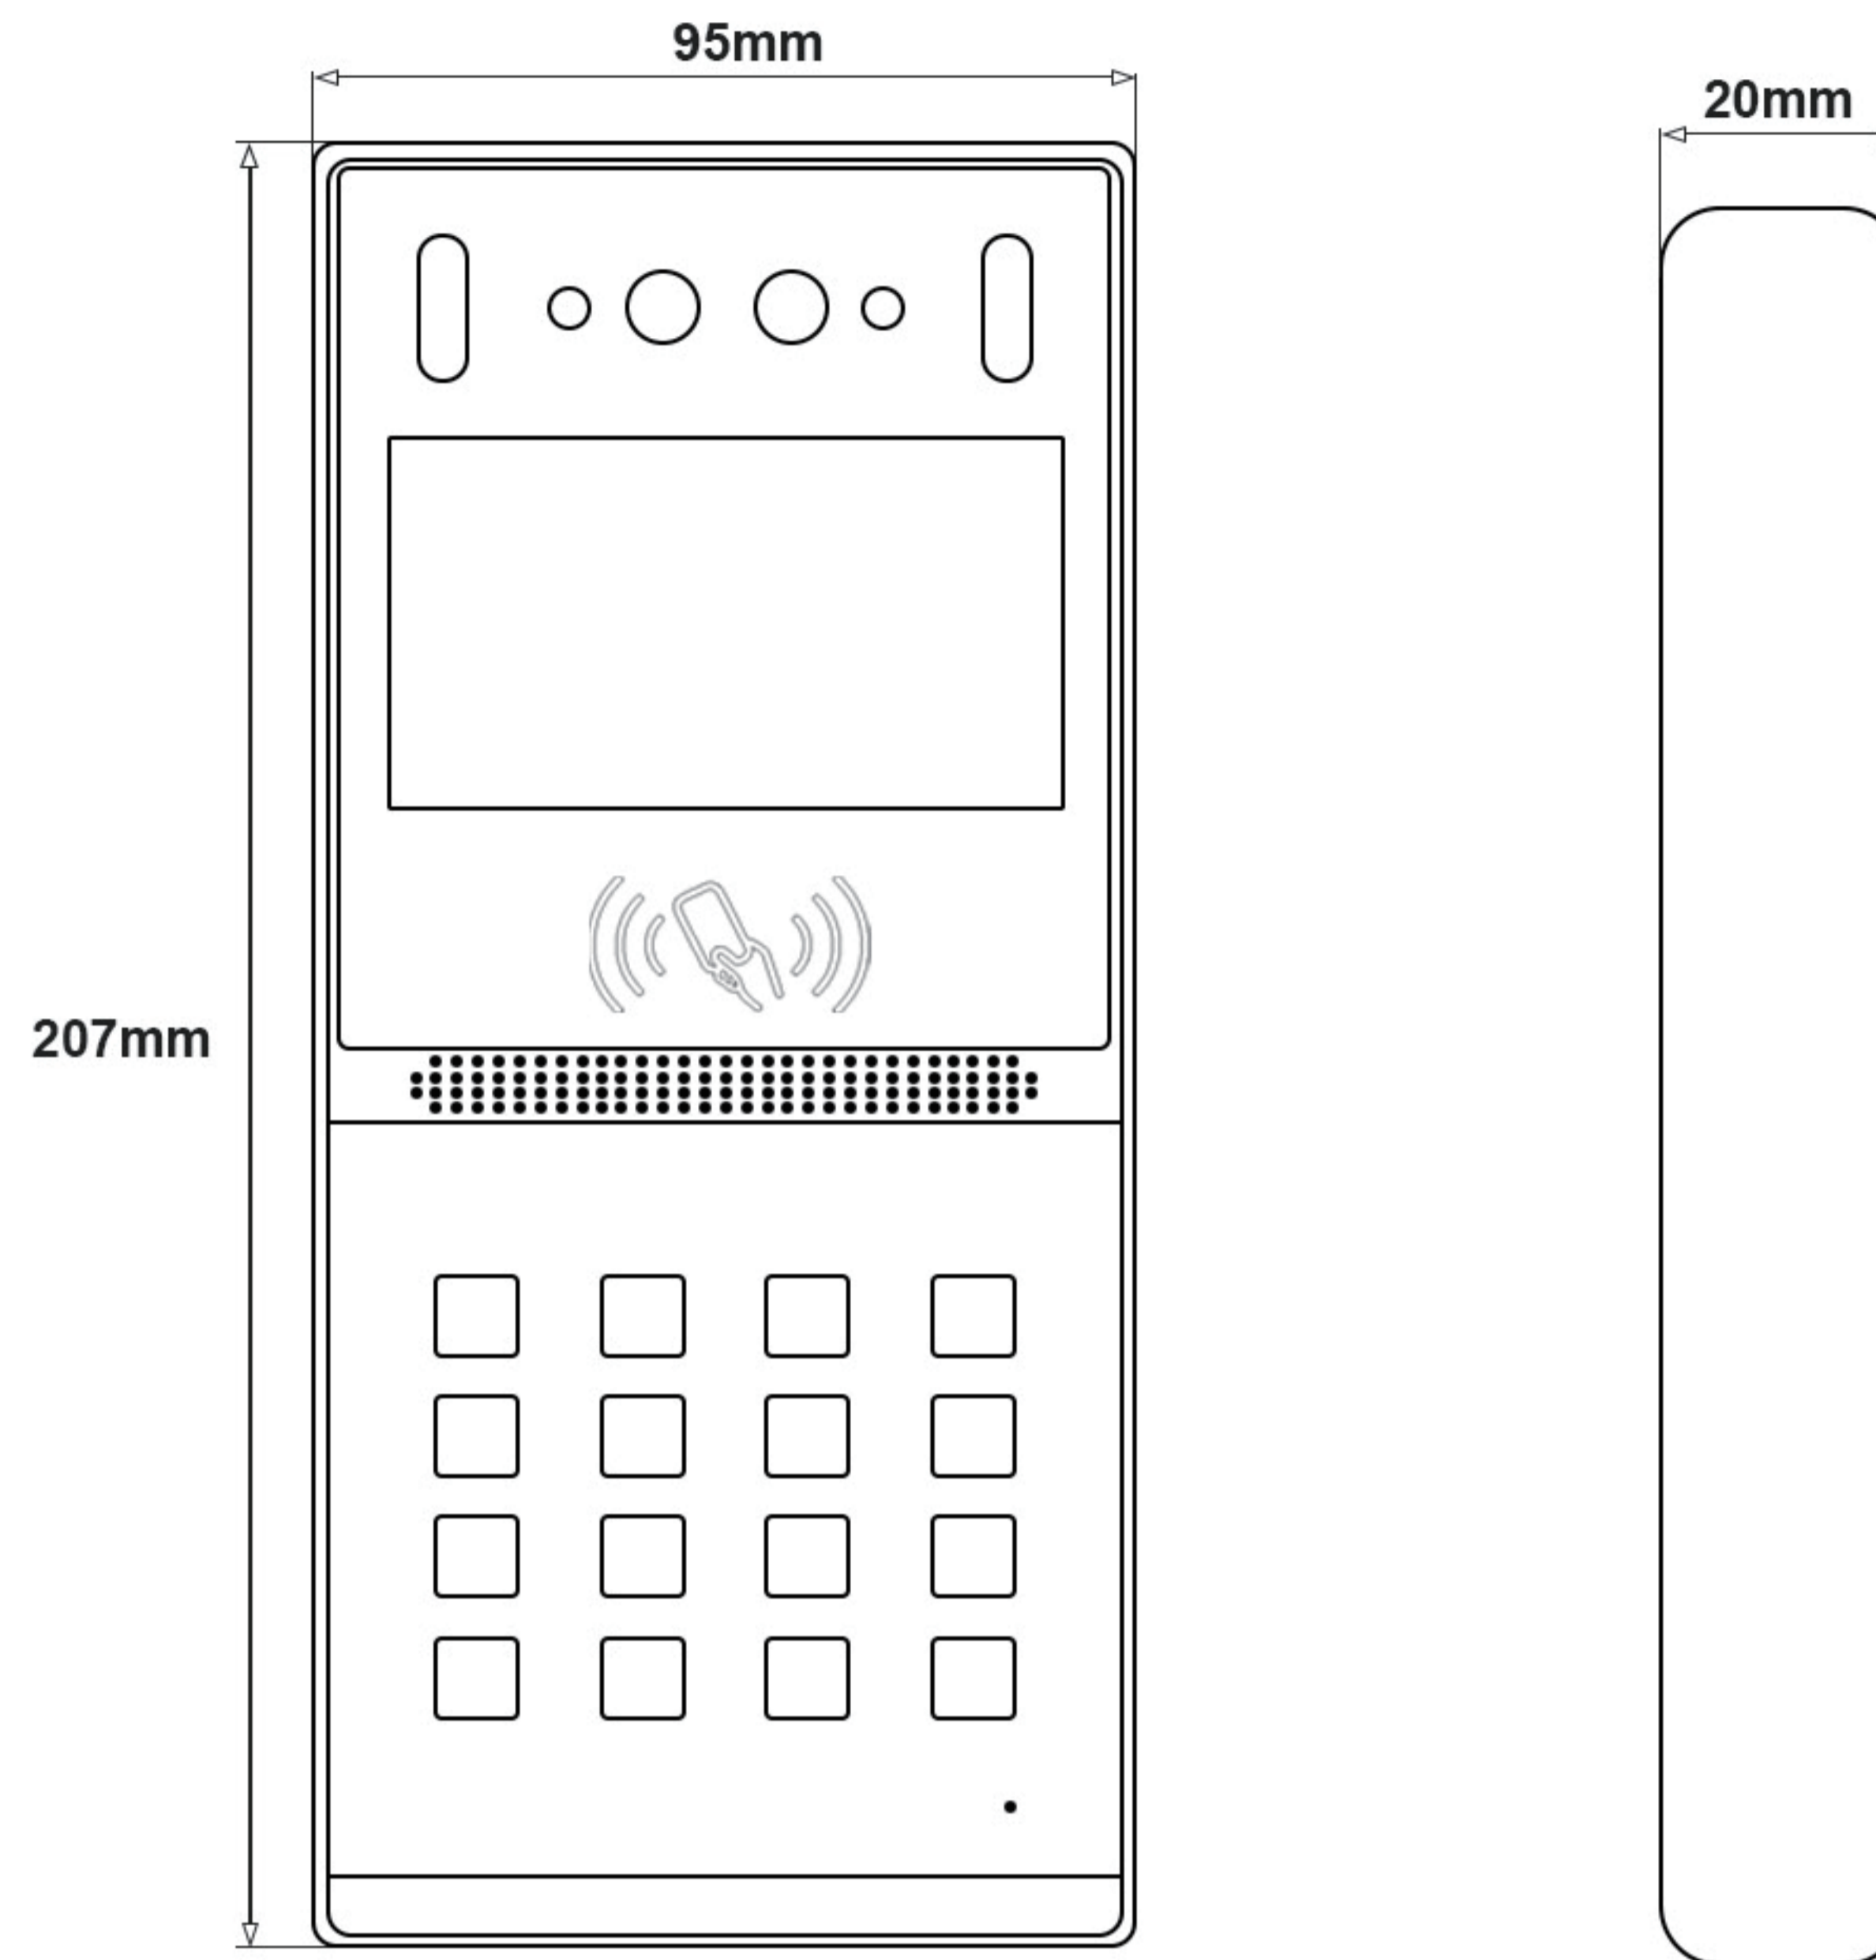

Specification

Door station	
Operation system	Linux operation system
Camera	2 Camera: 1 1080P Video Camera and 1 Face ID Camera
Display screen	4.3 “ IPS HD Touch Screen
Display resolution	480 * 854
Night vision	Auto IR
Day/Night	ICR auto switch
Indicator	1 White LED: turn green when unlock successfully; red when failed.
Field of view	130°
Audio input	1 microphone, pickup distance \leq 0.5 meters
Audio output	1 speaker
Audio intercom	Two-way audio communication
Communication Mode	IP
Audio quality	Noise suppression and echo cancellation
Tranmission Signal	TCP/IP
Tranmission Distance	\geq 100 meters
Connection	Network cable, CAT 5 / CAT 6
Wired Network	1 Rj45 Ethernet port
Lock Control	1 port
Unlock Mode	Face ID, Cards, Tuya App, Indoor Monitor
Card Type	13.56MHz IC card / NFC
Face ID	40000
Live Detection	Yes
Language	English, Russian, Arabic, French, Spanish, Turkish, Persian
Power supply	DC 15V 1.2A / Power from PoE
Power consumption	< 5 W
Working temperature	-40 °C to 70 °C
Working humidity	10% to 95%
Color	Iron grey
Materials	Aluminum Alloy + IPS Glass lense
Accessory	Metal Rain cover (included)
Protection level	IP65 Weatherproof
Dimension	207mm * 95mm * 20mm
Installation	Surface mounting / Wall-mounted

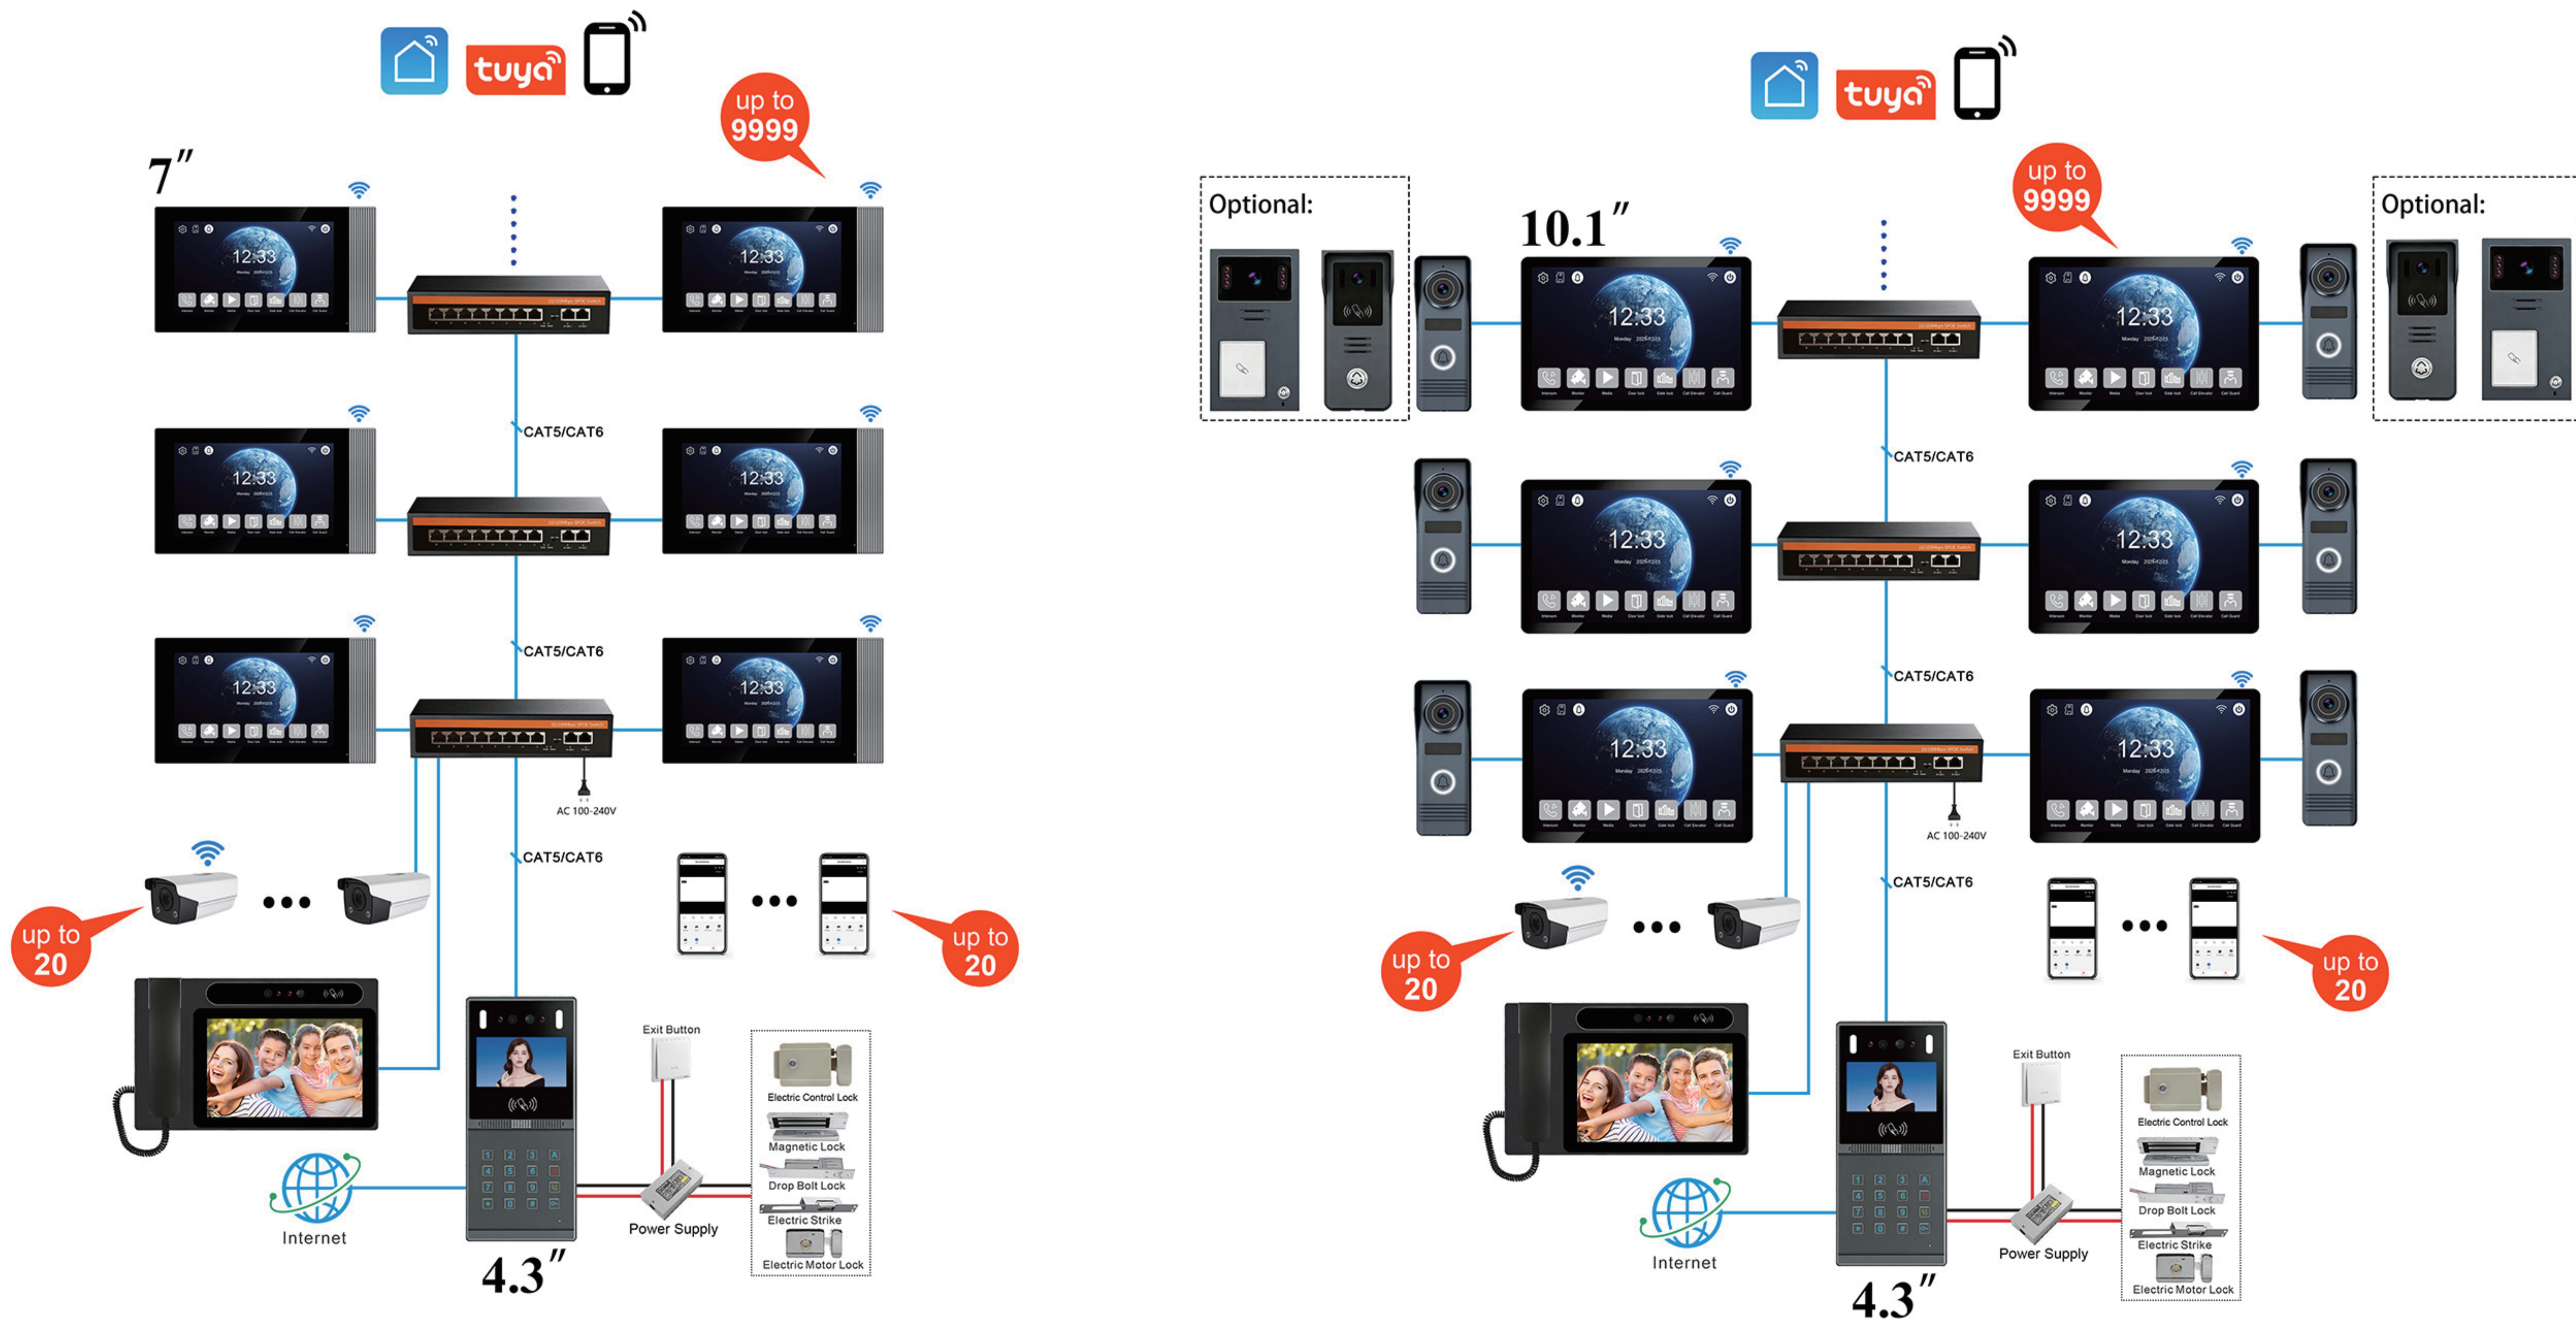

CE FC RoHS
